A technical line drawing of a garment panel, likely a back panel for a Twinset Gr 46 size 46. The panel is oriented vertically and features a grid of four rectangular panels. A thick blue line starts at the top right corner, descends diagonally, and then turns vertically downwards towards the bottom right corner. A single black dot is positioned on this blue line, located approximately one-third of the way from the top. The drawing is enclosed in a rectangular border with inward-pointing tick marks on all four sides.
