Border Corner Triangles – Maxi on Jumbo Hoop directions

Hoop two layers of OESD Ultra Clean and Tear in a Maxi or Jumbo hoop.

Fuse the triangles of OESD Fusible Woven Stabilizer to the center of the wrong side of the Fabric D triangles that you cut from 14-3/4" squares, so the raw edges of the long sides align as shown on the right.

Mark the vertical center on the front side of each of the triangles as shown on the right.

Select Design #80190-19_Composite from the Jubilee Quilt folder. Embroider the first color change of the design on the hooped Ultra Clean and Tear using Isacord 0721 in the bobbin and in the top of your machine.

Spray the wrong side of the Fusible Woven backed area of one of the triangles and stick it to the front of the hooped Ultra Clean and Tear, aligning the vertical center of the triangle on top of the vertical basted line. The long edge of the triangle should lie right along the horizontal basted line.

Embroider the second color change of the design, which bastes your fabric.

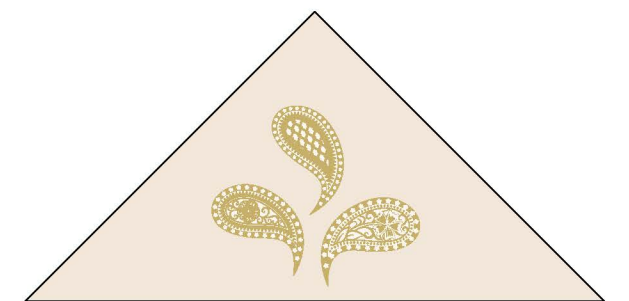

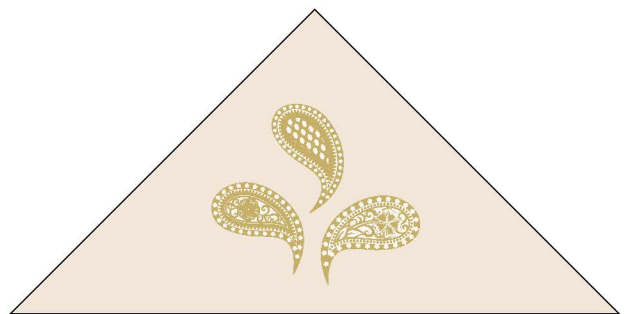

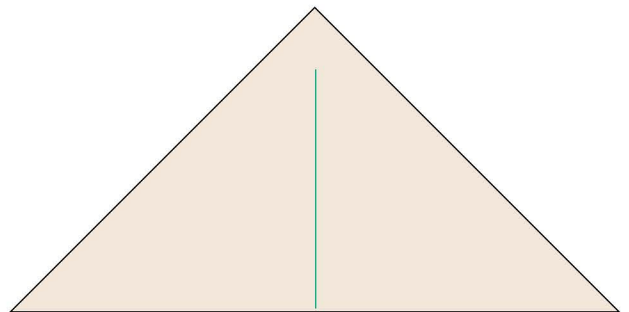

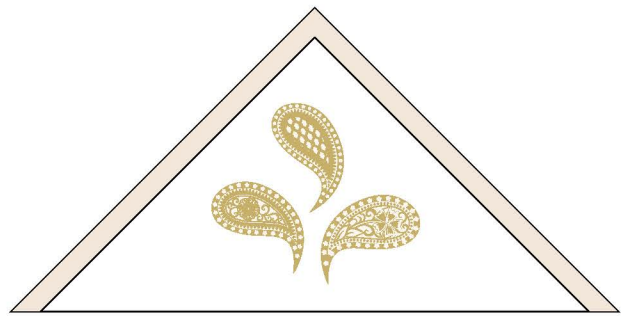

Embroider the third color change of the design, which is the applique placement line.

Lightly spray the wrong side of a Fabric G white rectangle 9"x 10" on your design with temporary spray adhesive and center the square placement lines. Embroider the fourth color change of the design, which is the tack down stitch, and cut around the flower shape, as close to the stitching line as you can get without clipping your stitches.

Embroider the next color change, the paisley designs.

Switch the top thread to Isacord 0101 when prompted to add detail.

Remove the design from the hoop. Tear off the Ultra Clean and Tear and cut away the excess Fusible Woven. Remove the basting stitches.

Repeat to make 4 embroidered blocks. Trim the blocks so that the long sides of the triangles are a 1/2" away from the edge of the design. Do NOT trim the short edges of the triangles.

NOTE: If using a BERNINA Large Oval Hoop instead of a Maxi Hoop or Jumbo Hoop, see the Jubilee Quilt Along on WeAllSew.com for information on how to complete the embroidery in multiple hoopings.
