

Gathered Tier Skirt

Pattern Guide by Hannah-Rose Smith

Measurements needed:

- Waist
- Skirt length from waist

Fabric & Haberdashery:

- 25cm zip
- Lightweight Fabric
(quantity dependent on your pattern)

Notes:

Once joined at the Side Seams and Centre Back seam, the Body of the Skirt is gathered (at A & D) to fit the Waistband. Then the Frill is gathered (at F) to fit the Body of the Skirt (at B & E). Insert the zip at the Centre Back seam.

This pattern does not include seam allowances.
I recommend a 1.5cm seam allowance.
